Product description

Cleaning & Care Service Sets for windows and doors

Our convenient sets for cleaning, care, protection and servicing of window and door profiles, shutters, seals and mechanism are available in two versions:

BASIC

The low-priced basic set

- for your promotion
- as addition for the final acceptance of construction work
- as giveaway for your customers

PREMIUM

The premium set

- for the regularly cleaning and care of building elements made of plastic material / PVC (white), decor and aluminium profiles

The single components

The products

Cleansing milk

Abrasive, solvent-free intensive cleanser for anodized aluminium windows, doors and roller shutters as well as for polyurethane windows and for all white PVC windows and roller shutters.

or

COLOR special cleaner

Washing active tenside cleaner for all window and door surfaces, also powder-coated ones, as well as for foil-clad and laminated wood decor profiles and door panels. Also cleans glass, metal and plastic surfaces free of streaks.

Gasket care

For maintenance and servicing of the gaskets. Sustains the softness and prevents gaskets to stick on the profile in summer as well as to freeze on the profile in winter.

Fitting oil

For maintenance and servicing of the fittings and hinges. Sustains the required gliding properties of the moving parts, thus prevents the metals from grinding dry in combination with corroding / digging in. Also provides additional rust protection.

Content of the sets BASIC and PREMIUM

	BASIC	PREMIUM
